the newsletter of the CUSA Executive

Volume I, Number 1

October 10, 1985

Welcome to the first edition of Execute, a newsletter designed to keep interested CUSA Board and executive members aware of the various and sundry activities of the CUSA co-presidents and vice-presidents.

As many of the members of the Board have noted recently, there has been a distinct lack of communication between the executives and the Directors. This newsletter attempts to rectify that by providing a monthly forum where the CUSA executives will be expected to explain the issues and concerns they have and will be dealing with.

Although none of the exec's will be tortured or permanently maimed for failing to submit regular reports to the Executioner (that's me), Board members should feel free to ask the reasons why V-P X, Y or Z has exhibited a failure to communicate.

Since this is the first issue and it has no contributors other than myself, I figured it might be a good idea to provide my fellow executives with food for thought for their first Execute submissions. I would also invite all Board members to submit their own ideas about what the Exec's should be addressing in their reports. 'Nuf said, here goes:

co-presidents:
